

It should NOT be up to the National Association of Broadcasters to dictate to me what I am permitted to hear. I really love satellite radio. Where I live there is a very limited choice of good radio so I went satellite and besides loving the variety music, I benefit from the satellite traffic and weather stations. No matter where I may be in the whole country. I like it so much I prepaid 2 years of listening. and I just expanded my system so I have it in car and in my home. Now I hear that someone is trying to shut it down. that would be a shame. Please don't take the satellite radio the whole family benefits from it yours respectfully
